#### **2019-2020**

The Even Semester (January – June) of the 2019-20 academic year was disrupted by the Covid-19-induced lockdown beginning from the month of March 2019. The teaching-learning process shifted from physical to online mode, including assessments for internal and end-semester components of examinations. The University Grants Commission (UGC) gave Covid19-compelled detailed guidelines on the 29<sup>th</sup> of April 2020 on teaching-learning process (online/offline) for higher educational institutions across the country. Based on the UGC guidelines, detailed college-specific examination guidelines were put in place on the 8<sup>th</sup> of May 2020 for both internal and end-semester components of examinations and evaluation of online examination scripts.

Soon after the Covid19-induced closure of the college, the entire college students, faculty and staff were given orientation on the process of online teaching-evaluation and the examination system. The college has a dedicated team of technical experts who oversee the entire process of online teaching-evaluation and examinations. All examinations are now being conducted using special examination software controlled and operated, almost in seamless manner, by the technical team. Apart from the responsibility of teaching-evaluation, each faculty has been trained to double-up as mentor as well as trouble-shooter of problems and difficulties raised by their respective students.

All the students were registered in the college examination portal. For all online examinations, students log into the examination portal using each student-designated username and password.

#### **EXAMINATION SYSTEM DURING THE COVID-19 LOCKDOWN PERIOD**

Students were assessed for a total of 100 marks for each course; the mark distribution is broadly divided into two categories: 30 marks for Continuous Internal Assessment (CIA) and 70 marks for End-Semester Examinations (ESE). Numerical marks are converted to grades A, B, C, and D using a ten-point scale.

#### **Online Continuous Internal Assessment (CIA)**

For each 6-credit course and as CIA component, students wrote centrally conducted 45-minute-internal examination for 10 marks and online submission of assignment/tutorial for 20 marks.

The students could log in to the examination portal and check their performance for each course in terms of marks and remarks/comments of the course teacher.

#### **Online End-Semester Examinations (ESE)**

For each 6-credit course, the end-semester examination was bifurcated into two components: 20-mark MCQ examinations and 50-mark open-book examination. Each 2-credit course had only the open-book examination for 50 marks. Each course was evaluated by the respective course teacher.

#### **Result Declaration**

Results for all postgraduate and undergraduate terminal students were declared on the 31<sup>st</sup> August 2020 and results for all intermediate students were declared on the 30<sup>th</sup> September 2020. The results were displayed on the college notice boards and also uploaded on the college website.

Covid19-induced sudden closure of the college brought about a series of challenges for the students, faculty and the examination system. However, being an autonomous college, the challenges were dealt with at war-footing and in concerted manner that the seemingly insurmountable crisis was not only overcome without compromising on the academic quality but also turned out to be a boon as all the stakeholders could take full advantage of the latest information and communication technology for the purpose of pursuing and imparting quality education. The students' results provided here below show, in part, the intent of the college in helping students attain academic excellence, come what may!
