Principal's Message

Patkai Christian College (Autonomous) always endeavours towards academic excellence and at the same time, strive to motivate and encourage its students to cultivate good moral character based on Christian principles and gain knowledge that will empower them to become humble and productive members of the ever-changing society. Through the tireless efforts of a battery of dedicated faculty and staff, the college provides ample opportunities to the students for holistic development through co-curricular and extra-curricular activities. In addition to imparting education in various disciplines, the college lays special emphasis on personality development and towards realizing the full potential of each and every student. In Patkai, students are provided with ability enhancement education and various essential life skill courses in a student centric and friendly environment.

The college is ever mindful of its autonomous status, which means a wider outlook, broader option of disciplines of study, greater responsibility, deeper commitment and better result.

Patkai Christian College is always led forward by its motto: ***Light and Truth.***

Dr. Thepfüville Pierü
Principal
Patkai Christian College
(Autonomous)

ABOUT PATKAI CHRISTIAN COLLEGE (PCC)

THE COLLEGE

Patkai Christian College is a liberal arts college founded and established on 28th August, in 1974 to provide subjects of study that develop students' knowledge and ability to think. Patkai was born out of the prayers of Christians in Nagaland and Manipur, and overseas, of which the Nagaland Baptist Church Council and Manipur Baptist Convention are major sponsors. However the college is not a denominational institution. Hence the college received financial assistance from several christian denominational churches as well as independent churches and organizations.

Patkai, as a Christian college firmly believes that education is for the whole man within the framework of spiritual and moral absolutes. Like every christian college, Patkai has the difficult task of retaining its traditional stance while seeking to make its educational philosophy relevant to the world around it. Committed to the principle that the truth is revealed by God through Christ "...in Whom are hidden all the treasures of wisdom and knowledge" (Col. 2:3), Patkai will seek to relate its instruction to the needs of contemporary society. The college will consciously seek to place all its activities within the framework of biblical perspective, specially on such critical issues as the nature of God, man, nature and the world, and to relate its instruction to the needs of the present society.

MOTTO

The central purpose of the college is expressed in its motto: "Lux et Veritas," Light and Truth. This purpose produces a concern for truth, righteousness and beauty and thereby gives meaning to the ideal of a christian liberal arts college. The founders of the college maintain that academic excellence and biblical christian faith and practice are essential to that purpose. Patkai consciously seeks to aid the students in developing habits which will contribute to his well-being - physical, psychological and spiritual - and which will enable them to participate constructively in community and church life.

VISION

"To impart quality education to the young people, especially the tribals, within the framework of spiritual and moral absolutes, catering to the socio-economic needs of the region and pursuit of science and technology for the welfare of the human society and the world as a whole."

MISSION

- To impart biblical value based education
- To inculcate analytical and creative thinking
- To teach the use of knowledge for social and economic change
- To create and inspire a wholesome attitude for service
- To provide wholesome spiritual and moral environment in which to pursue education
- To disseminate and advance knowledge
- To produce future leadership

LOCATION

Patkai's 1000 acre site was donated by Chümoukedima and Seithekema villages. It is a mega campus residential college located across the Chathe river, 10 miles east of Dimapur on the way to Kohima. It is 10 miles from the only railway station, and seven miles from the only airport in Nagaland. The campus is hardly two furlongs from the National Highway (NH) 29, and another four-lane NH, which is connected to neighbouring Assam state, passes through the college campus.

THE ETHICS CODE

Patkai Christian College seeks to ensure that people are treated equitably regardless of gender, tribe, nationality, religion, economic status, etc. Equality and diversity are integral to priorities and objectives of the college, whose community life is governed by the ethical values such as responsibility and accountability, equality of respect and opportunity and collegiality.

STATEMENT OF FAITH

1. We believe that the sixty-six Canonical books of the Bible as originally written were fully inspired by God, hence free from errors. They constitute the only infallible guide in faith and practice.
2. We believe in the unity of the Father, the Son and the Holy Spirit in the Godhead.
3. We believe that Jesus Christ was begotten by the Holy Spirit, born of the Virgin Mary and is truly God and truly man.
4. We believe that man is created in the image of God, that he sinned and thereby incurred not only physical death, but also spiritual death which is separation from God; and that all human beings are born with a sinful nature.
5. We believe that the Lord Jesus Christ died for our sins, according to the Scripture, as representative and substitutionary sacrifice, and that all those who believe in Him are justified on the ground of His shed blood.
6. We believe in the resurrection of the crucified body of our Lord, in His ascension into heaven, and in His present life there for us as High Priest and Advocate.
7. We believe in "that Blessed Hope", the personal and imminent return of our Lord and Saviour, Jesus Christ.
8. We believe that all who receive by faith the Lord Jesus Christ are born again of the Holy Spirit, and thereby become children of God.
9. We believe in the personal existence of Satan.
10. We believe in the bodily resurrection of the just and the unjust, the everlasting blessedness of the saved and the everlasting punishment of the lost.

INTRODUCTION TO NATIONAL EDUCATION POLICY (NEP) 2020 FROM THE 2024-25 ACADEMIC YEAR

The Government of India announced the National Education Policy-2020 in July 2020. Covering all levels of education – from school education to higher education, including professional and adult education – the policy rests on the principles of affordability, accessibility, quality, equity, and accountability. A substantial part of the policy document is devoted to higher education, with emphasis on a multidisciplinary approach, faculty, and institutional autonomy, governance reforms, enhancing access through credit mobility, open and digital learning environment, and skills development.

In adherence to the National Education Policy (NEP) 2020, Patkai Christian College is introducing a revised Curriculum and Credit Framework for Undergraduate Programmes (CCFUP). This is based on the University Grants Commission's (UGC) guidelines, with a student-centric focus, flexible choice-based credit system, and a multidisciplinary approach. This framework also provides multiple entry and exit options, facilitating students to align their education with their career aspirations by choosing subjects/ fields of their interest.

ECONOMICS

Economics isn't just a subject; it is a way of thinking. Economics is essential for modern life, because it seeks to understand, assess and explain the mechanisms of markets and national economies. Learning economics gives insights into the general environment of resource allocation decisions, opportunity costs and project evaluation that are crucially important in many areas. It teaches how to analyze and interpret economic data and equip the students with the tools to find smart solutions for the numerous problems confronting public and private sectors.

ENGLISH

English is the world's leading lingua franca, the main vehicle of communication, an indispensable tool of international economy, diplomacy, sciences and global media. The language represents the cross cultural globalization in multiple voices. Its study is essentially a selected dimension of theoretical, ideological, applied and pedagogical constructs related to unprecedented spread of English in the world contexts. The transplanted English in new linguistic, cultural and social milieus entails teaching and learning English in multilingual situation with genetically and culturally language contexts. The discipline offers a wide, comprehensive and carefully planned syllabi to understand, critically appreciate and assess the history, genres of literature down the ages, ranging from poetry, drama, essays, fiction, criticism, efficiency in linguistics and phonetics, journalistic writing and to effective communication skills. Literature presents a picture of life, a precise account of variousness, possibility and concrete dramatization of "lived" meanings. It is charged with power to the utmost degree, enlivens the reader with pleasure, a graceful ornament of civil liberty and has the art of saying something that will be read twice.

HISTORY

Considered as the ‘Mother of Social Sciences’ and the ‘Storehouse of Knowledge’, history provides an array of information about the past events. Moreover, it enables a better understanding of the present in the light of a proper study of the past. And in the process of imbibing knowledge, one can develop the capacity to analyse evidence, think critically and communicate effectively. The discipline offers courses extending from the beginning of human civilization to the most immediate past. The courses are regularly updated reflecting the latest developments in historical research.

PHILOSOPHY

Philosophy is the rational investigation of the truths and principles. The knowledge of philosophy empowers critical, creative and independent thinking for a better understanding of the world to promote humanity, tolerance and peace. Life being the prime concern of philosophy, it enquires into critical issues such as the nature of God, man, nature and the world. In addition to that, it also enquires into the nature, meaning, purpose, origin, and destiny of human life. Logic being the chief instrument of Philosophy, the rational speculation, logical analysis and synthesis are its methods.

POLITICAL SCIENCE

Known as the 'Master Science', Political Science as a discipline introduces the students to the evolution and usages of various ideological and theoretical standpoints with a view to critically understand and explain from different perspectives the structure and functioning of modern states and governance. The ideologies and theories are tested, verified and analyzed through the study of different systems: national, regional and international organizations and non-governmental organizations. The discipline is designed to inform and inculcate a critical mindset to examine the structural-functional aspects of governance vis-a-vis the wholesome development and progression of human society.

BACHELOR OF SCIENCE

BOTANY

Botany is a branch of the natural science dealing with the study of plant life. The study introduces students to the interesting and complexities of the structure, function and relationship of plants. An essential background to this study is the opening up of the vast knowledge of plants evolutionary history, life structure, functions and relationship by integrating knowledge from molecular level to the whole of unicellular and multicellular organism. Knowledge being principally integrated and supported with practical and field work provides valuable skills. Exposure programme including field study, poster presentation, seminars, research projects, visits related institution, etc. for proper understanding of the function of systems is an important activity of the department.

CHEMISTRY

Chemistry has been defined as Molecular Science which provides better materials, better medicines and better healthcare to the humanity. B. Sc. Honours course in Chemistry features introductory to advance studies. Different analytical methods and spectroscopic techniques are provided in the syllabus. Literature Review and Scientific Writing are introduced as skill enhancement courses. Practical study based on UV-visible spectroscopy is the special feature in this syllabus. Applications of basic chemistry practical to various fields and studies such as biochemistry, environmental science, agricultural science, food, medicines, dye, soaps, detergents, etc. are provided in the practical courses.

MATHEMATICS

Mathematics is as old as civilization itself and is one of the most useful and fascinating branches of human knowledge. Broadly, Mathematics is the study of quantity, structure and change. Mathematics is an essential tool for nearly all scientific studies. Scientists use it in designing experiments, analyzing data, expressing precisely their findings by mathematical formulae, and making predictions on the basis of these findings. Both physical sciences and biological sciences rely heavily on mathematics. Social Sciences, Economics, Psychology and Sociology also depend greatly on Statistics and several other branches of mathematics.

ZOOLOGY

Zoology as a discipline introduces students to the complexities of animal system by integrating knowledge from biology of cells to the behaviour of the whole organisms. Students will get to know about animal behaviour, reproduction, physiology, biochemistry, endocrinology, immunology, genetics, wildlife and its conservation, taxonomy, biotechnology, bio-informatics, parasitology, biophysics, ecology, fishery, etc. All these combined with practical work, fieldwork, projects, seminars, debate and workshop provide valuable information and skills that will help them to make a career of their choice.

BACHELOR OF COMPUTER APPLICATION (BCA)

Bachelor of Computer Applications (BCA) is a three-year undergraduate program. The course is designed to give students knowledge, understanding, skills and techniques such as communication, personal and interpersonal, critical and creative thinking, practice and methods they need to prepare for employment or higher studies.

Objectives:

- To develop problem solving abilities using a computer.
- To build the necessary skill set and analytical for developing Computer based solutions for real life problems.
- To imbibe quality software development practices. to create awareness about Process and product standards.
- To train students in professional skills related to Software Industry and IT enabled services.
- To prepare necessary knowledge base for appearing in competitive exams and development in Computer Science for higher studies.
- To help students build-up a successful career in Computer Applications.

BACHELOR OF COMMERCE (BCom Honours)

Commerce as a discipline of study broadens the horizon of men towards creative thinking, innovative practices, professional managerial conduct, and self-sustainability. It focuses on the factors that drive economic behaviour at individual and organizational levels. The study empowers the analytical, communicational and problem-solving skills to effectively identify issues, source information and find efficient and practical solutions. The course is designed extensively to impart knowledge in the field of accounting, management, marketing, entrepreneurship, taxation, and law. This would generate the spirit of self-employment and strengthen human resource development in various capacities.

BACHELOR OF MUSIC (BMUS)

The department seeks to impart music education of the highest quality possible in order to foster a creative, competitive and productive learning spirit among the students. The music curriculum aims to provide students with a strong musical foundation and effective musicianship and leadership skills so that they will be equipped to render professional and qualitative service in the field of music.

BACHELOR OF MASS COMMUNICATION (B Mass Comm)

Mass Communication is a well established discipline highly interdisciplinary in nature. The discipline studies communication as an imperative agent of social order and social change. The course focuses on media in all its forms and offers a systematic progression of skill-based, industry-relevant, hands-on production work and theoretical knowledge. The degree programme is practical driven designed to train the students in gaining full range of technical expertise, conceptual skills, social engagements and artistic expressions required to become established media practitioners and professionals in all sectors. The course aims to address the demand-supply mismatch in the country where the economy needs more skilled workforce than that is available by offering a balance of theoretical and skill lessons.
